

Week2-Day2-Assignment

Test Case generation for insurance portal dashboard and validation for policy details

content": "I — INSTRUCTION

Convert the provided User Stories and Acceptance Criteria into detailed, testable Test Cases.

MANDATORY RULES:

- 1) Derive test cases ONLY from the given user stories and acceptance criteria.
- 2) Do NOT add assumptions or new requirements.
- 3) Cover positive, negative, and validation scenarios.
- 4) Write test cases from an end-user perspective.
- 5) Do NOT include implementation or technical details.

C — CONTEXT

These test cases will be used by QA teams for manual and automation testing in an enterprise insurance portal.

P — PERSONA

As a QA Architect experienced in converting Agile user stories into high-quality, review-ready test cases.

O — OUTPUT

Return test cases in the following structured format:

- TC_ID
- Title
- Preconditions
- Test Steps
- Test Data
- Expected Result

Rules:

- Each test case must be clear and independent
- Use business-readable language only
- One scenario per test case

USER STORY:
